

Multiple Diversities:

Child/Youth Identity and Life Outcomes

Save-the-date

December 1, 2009

MaRS Discovery District, Toronto, Canada

How do the ways that we see young people affect the way they see themselves?

What are the impacts on their health and well being?

How can we use existing knowledge to ensure optimal life outcomes for all of Canada's immigrant and refugee children?

This symposium will be of particular interest to: educators, health care professionals, social service providers, policy makers, non-governmental organizations, child / youth associations, researchers and students
